

THIRD-PARTY RISK MANAGEMENT

FULLY MANAGED SERVICE

A scalable, done-for-you service that takes ownership of your third-party risk management. Your team keeps oversight. We handle the work.

HOW THE MANAGED SERVICE WORKS

CORE SERVICE COMPONENTS

1. VENDOR ONBOARDING AND CLASSIFICATION

Tiered by operational dependency, data exposure and sensitivity.

2. RISK ASSESSMENTS AND EVIDENCE COLLECTION

Tailored assessments, independent scoring, and clear recommendations.

3. REMEDIATION AND FOLLOW UP MANAGEMENT

Manage follow-ups directly with suppliers through to completion.

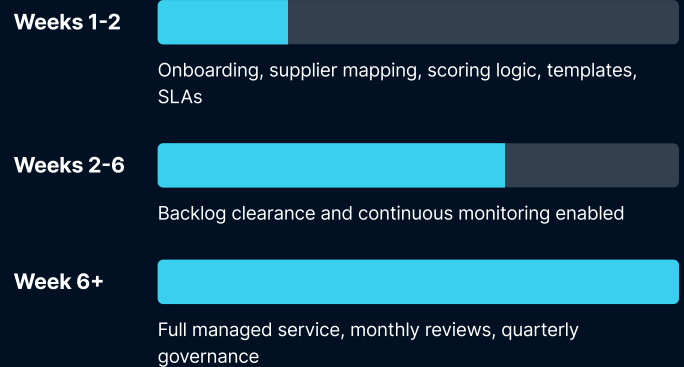

4. CONTINUOUS MONITORING

Track supplier breaches, news, vulnerabilities, and regulatory flags.

5. REPORTING AND BOARD READY DASHBOARDS

Operational dashboards and executive summaries for Risk Committees.

IMPLEMENTATION TIMELINE

KEY BENEFITS

- ✓ Clear Backlog Reduction
- ✓ Improved Board Visibility
- ✓ Stronger Resilience
- ✓ Focus on risk decisions, not risk administration
- ✓ No hiring costs, no key person dependency, no coverage gaps.

WHAT WE NEED FROM YOU

- Supplier list
- Your risk framework, or we build one with you
- A named owner for risk acceptance decisions
- Designated contacts in procurement and security

Once onboarded, we operate the service end-to-end.

OPTIONAL ADD-ONS

- + DORA operational resilience mapping
- + Stress testing
- + Tabletop exercises
- + Onsite assessments

THE PROBLEM WE SOLVE

- ✓ Poor visibility of third party risk and potential impact at exec level
- ✓ Non compliance with regulation
- ✓ Large backlogs of overdue or incomplete vendor assessments
- ✓ Limited internal capacity to manage hundreds of suppliers
- ✓ Evidence collection done manually via email and spreadsheets
- ✓ Fragmented processes across procurement, security and risk
- ✓ High dependency on individual analysts or overstretched teams
- ✓ No ongoing monitoring or early warning signals

COMPLIANCE & FRAMEWORKS

We'll evidence compliance with the applicable regulatory or best practice framework for your operations.

DORA

NIS2

Internal Policies

ISO 27001

WHAT WE MANAGE

End-to-end vendor risk assessments

Remediation tracking and follow-ups

Evidence collection, validation and follow-up

Vendor onboarding workflows and annual reviews

Risk scoring and recommendations

Governance reporting and board-ready dashboards

Continuous monitoring of critical suppliers

WHAT YOU OWN

Deciding which suppliers are in scope

Final risk acceptance decisions

Internal escalations and approvals

Everything else is run by our team.

Applying this in practice

For many organisations, the hardest part of third-party risk management isn't grasping the principles, it's turning them into a best practice operating model that defends the organisation and meets regulatory requirements.

If you're navigating that challenge, we'd welcome a conversation. Whether you're building a programme from the ground up or looking to strengthen existing oversight of your vendors and suppliers, a short exploratory call could help clarify your options and next steps.
